

## Male Prostate Health

# SUPER SAW PALMETTO

### Supplement Facts:

- Saw Palmetto (*Serenoa repens* or *Serenoa serrulata*) fruit powder

### Background:

*Serenoa repens*, commonly known as Saw Palmetto, is a palm species that is endemic to the Southeastern United States. Its berries have been used for centuries by Native Americans living in the territories of modern day Florida, Alabama, and Louisiana as a medicinal herb that alleviated prostate discomfort and improved libido and sexual desire. Currently, it is a well-researched herbal ingredient that is used by modern science to treat various adverse conditions of male prostate and related organs. Published studies suggest that most men, especially in the West, will endure some form of prostate-induced discomfort during their lifetime. Most of which stems from sedentary lifestyles and lack of sufficient physical activity, lack of which are core contributors to prostate discomfort and in severe cases even prostate cancers. **Super Saw Palmetto** by **Forze Della Natura™** addresses all these issues by supplying the right amount of saw palmetto that will allow you to have a healthy prostate function.

### Key Features:

- Supports male prostate health;
- Improves urinary function and cycles;
- Increases libido and sexual performance;
- Improves quality of life.
