ARTICHOKE EXTRACT

Supplement Facts:

- Artichoke standardized extract (leaf) containing cynarin, chlorogenic acid and other caffeic acid derivatives;
- Artichoke powder (leaf);
- Salvia miltiorrhiza (DanShen) extract .

Background:

It is a well-known fact that improper digestion and abnormal liver function may lead to development of a multitude of health risks and diseases that can undermine our ability to properly function and enjoy life. **Artichoke Extract** by **Forze Della Natura™** contains a proprietary blend of ingredients that possess the ability to maintain healthy digestion and liver function, especially in individuals whose normal diets are rich in saturated fats, animal protein and carbohydrates. Cynarin and chlorogenic acid are the two key ingredients that have been extensively studied and showcase positive effects on glucose levels which are essential for purposes of maintaining a normal body to weight ratio. Additionally, cynarin is responsible for maintaining normal cholesterol levels.

Key Features:

- Improves liver function and liver health;
- Supports full liver detox cleanse;
- Improves digestion and breakdown of foods rich in saturated fats and protein;
- Normalizes glucose levels and promotes a normal body-to-weight ratio;
- Stabilizes cholesterol levels.
