Background:

Liver Platina Formula™ by **Forze Della Natura™** is a state-of-the-art multicomponent nutraceutical product that contains strong hepatoprotective and fluid regulating properties. Due to use of novelty ingredients that synergistically impact and promote normal liver function on the cellular level, your liver gets protection from mitochondrial decay and toxic species that undermine normal cellular energy output expressed by the liver. Certain associated lifestyle risks, e.g. smoking, drug abuse, and alcohol consumption, make it all the more important to ensure that the liver is being maintained at its functional best which can be addressed by Liver Platina Formula™.

Key Features:

- Promotes a Healthy and Normal Liver Function;
- Provides protection from toxicity associated with smoking, drug abuse, and alcohol consumption;
- Improves Liver Metabolism;
- Undermines main risk factors associated with development of scar (fibrosis) tissue in the liver that may in severe cases result in hepatic cirrhosis;
- Increases Energy and Quality of Life.
