

Forze della Natura™

Digestive Tract Health

BROMELAIN

Supplement Facts:

- Bromelain proteolytic enzyme extract from pineapple

Background:

Bromelain is an enzyme from the pineapple plant which accelerates the breakdown of proteins, inhibits inflammation and removes excess fluids. It has been used for several centuries by Europeans as a natural digestive aid and bloating reliever. **Bromelain** by **Forze Della Natura™** is an all-natural product, which is enterically coated and aids the digestion process in both the stomach and small intestine. Some studies have shown that enteric coated bromelain enters the bloodstream in the small intestine and helps to support a wide range of body systems including inhibition of inflammatory response in joint and tendon tissue.

Key Features:

- Supports a healthy digestion process;
- Promotes the breakdown of animal protein;
- Relieves bloating and stomach cramps;
- Facilitates the removal of excess fluids from the body.
