

Forze della Natura™

Digestive Tract Health

## LACTASE FORMULA

### Supplement Facts:

- Lactase (*Aspergillus oryzae*) 3,000 FCC (ALU)

### Background:

Lactose intolerance is the inability of adults to digest lactose (a sugar found in milk) and to a lesser extent dairy products, which causes a wide range of side effects, e.g. bloating, pain or cramps in the lower belly, gas, loose stool and diarrhea, etc. **Lactase Formula** by **Forze Della Natura**™ is your nutritional aid that contains a key compound responsible for breakdown of lactose in the small intestine, i.e.  $\beta$ -galactosidase. This enzyme allows lactose intolerant individuals to fully digest milk sugars and introduce back into their diets foods that previously had to be avoided.

### Key Features:

- Promotes a Healthy Digestive Process;
- Aids in the breakdown of lactose in lactose intolerant individuals;
- Supports a normal gastric function in the small intestine;
- Improves quality of life.
